

## **The public transport service will remain open until two o'clock in the morning for the next two weekends**

---

- The trains of the Barcelona Metro, the FGC, and the TRAM will all be operative until **2 am on the Friday and Saturday nights** of the next two weekends (8-9 January and 15-16 January)
- **The night bus lines managed by the AMB (the Nitbuses) and those of the Catalan Government (Generalitat) will be maintaining their schedules**

*Barcelona, 5 January 2022.*- Due to the 14-day extension of the expanded restrictions announced by the Government to contain the increasing spread of the pandemic, the public transport network of the area of Barcelona will be adapting its service hours while such measures are in place. This decision was taken by the Metropolitan Transport Authority (Autoritat del Transport Metropolità – ATM) in response to the request of the consortium-member administrations and the main public transport operators.

As a result, the trains of the Barcelona Metro, the FGC and the TRAM will be operative until **2 o'clock in the morning on the Friday and Saturday nights** of the next two weekends (8-9 January and 15-16 January).

### **Night bus service**

The night bus lines managed by the AMB (the Nitbuses) and those of the Catalan Government (Generalitat) **will be maintaining their normal schedules** to facilitate the mobility of workers.

### **Mandatory use of masks and silence**

In view of the current surge in COVID-19 cases, the ATM reminds all passengers that the correct use of masks is mandatory in the public transport network and recommends that they remain silent throughout the course of their journeys. Both of these rules are measures of protection and prevention against the spread of COVID 19.
