

T-mobilitat takes over around fifty intercity lines in Maresme, Moianès, Osona, Vallès Oriental and Vic urban

- The deployment in the bus network takes the last big step and incorporates all the Sagalés lines that had not yet been integrated
- T-mobilitat already allows the validation of almost 100% of the bus network of the 6 zones of the Barcelona Metropolitan Transport Authority (ATM, in its initials in Catalan)

Barcelona, 24 February.- This week, T-mobilitat also incorporates some fifty bus lines from the Sagalés company, the last major integration before reaching 100% of the bus network of the 6 zones of the Barcelona ATM.

Sagalés thus integrates the entirety of its service with the new system and adds around fifty new intercity bus routes that run through the north of Maresme, Moianès, Osona and Vallès Oriental, some of which also connect to Barcelona. With this integration, **the urban service of Vic** is also incorporated into T-mobilitat.

With these latest additions, the deployment of T-mobilitat in the bus network of the 6 zones of the Barcelona ATM is **close to 100%**. The new system currently allows travel on all the Barcelona ATM's railway network and the entire Barcelona metropolitan area bus network and with practically all the interurban and urban bus services in Rings 2, 3, 4, 5 and 6.
